About Adiloans

India being developing and fast growing country has seen phenomenal changes in entrepreneurs particularly SME sectors and start ups, these entrepreneurs, due to change in various factors like non availability of sufficient funds, face regular struggles in moving their business forward and they look for external support from banks and financial institutions(NBFCs). Sometimes due to lack of business experience or non availability of collateral, lengthy and cumbersome process, they fail to get funds from bank at a time when they need money to move their business which result into either they drop their business in middle or are forced to borrow from unorganised sector at higher cost which make their business unviable and non profitable.

Higher demand of loans in recent years has compelled Banks and Financial Institutions to think out of the box and make lending process easy and flexible. In recent years technology has played a vital role to enable non banking financial companies (NBFCs) in providing micro, small, medium and large business loans to them as per their expectations.

Adiloans a flagship of Aditsh Fintech Private Limited (part of Aditsh Group) has come up with innovative solution to provide smooth and flexible business loans to its clients, Adiloans is a Fintech company and providing technology based lending solution to its clients with fastest process, credit lines which avoid extra burden of interest due to non utilisation of loan, most competitive rates.

Adiloans is also engaged in promoting the group lending which help new entrepreneur to borrow from us while joining hands with existing and experienced entrepreneurs. We also believe in women empowerment and have come up best in class credit lines to women entrepreneurs.
